Advancement in Technology – and still keeping it simple

At this year's Cyto conference in Edinburgh, Agilent launched their newest member of the Novocyte Family – The Novocyte Opteon.

A joyful event, with great contribution of both Agilent and the beta-test-site Aarhus University Flowcore Facility.

To celebrate this happy event, you are invited to a free launch seminar of the Novocyte Opteon.

After the seminar you will know a lot more of the instrument and the great results of the beta-test with the OMIP-069 panel.
