Next level plasmid DNA purification

- ▷ NEW! NucleoBond® RS columns for vaccine-grade plasmid DNA
- ▷ Superior midi to giga scale endotoxin-free options
- ▷ Proven and consistent anion exchange technology

NucleoBond® RS columns

Plasmid purification in compliance with high regulatory standards

- Vaccine-grade plasmid DNA purification
- Closed columns for peristaltic pump or FPLC processing
- Scalable system for up to 200 mg plasmid DNA
- Endotoxin levels ≤ 0.01 EU/ μ g DNA

NucleoBond® Xtra Midi/Maxi EF kits

- Endotoxin-free plasmid DNA purification with high yield and purity
